

AtWell STAGED HOME

A 3-hour consultation helps these owners show off their home and not the items in it. Focus is placed on the large windows, high ceilings, big rooms, and hardwood floors. Master bath and bedroom are upgraded in record time. Shown are the listing pictures – before and after staging. Prior to staging, the sellers did not display pictures of the master bath and bedroom. Now they are proud to show them off.

Before, the focus is on the furniture. After, the focus is on the large windows.

Before, all the seating is in one corner. After, two seating areas are created.

Minor changes put the focus on the fireplace.

AtWell
STAGED HOME

New bedding, side tables, lamps and window treatments. Hardest part - removing large headboard that partially blocked side windows.

80s décor and wallpaper removed. Granite counter upgrade along with new fixtures, mirror, and towels.
