

Inside Out

Staging makes the inside of this beautiful home as appealing as the outside. No cost changes finally lead to a sale.

- Workout area is converted back to child's room
- Great room now lives up to its name
- Kitchen is simplified and decluttered
- Vertical blinds removed in kitchen and living areas to show off one of this home's best features

Prior to staging this home is listed for 6 months with no sale. After staging it sells in less than 3. Budget staging at its best.
